Amazon.com: Corpus-Based Contrastive Studies of English ...

Corpus-based contrastive study of verbal tenses, consists of four main sections and ends with a summary. First, I give an account of the importance of using authentic, naturally occurring and systematic data, as well as of the advantages and limitations of using corpora in linguistic and pragmatic research. Second, I describe the three sets of translation corpora that were compiled for this research: bilingual English-French, bilingual French-English, and multilingual English-French-Italian ...

ISBN 9789027273772 | EUR 80.00 | USD 120.00. Contrastive Linguistics, like other linguistic disciplines, is becoming more and more data-oriented, relying increasingly on the statistical analysis of corpus data to reveal and investigate the similarities and dissimilarities between languages. The volume Corpus Studies in Contrastive Linguistics illustrates this current trend with a representative sample of contrastive linguistic case studies.

Corpus Studies in Contrastive Linguistics | Edited by ...

Synopsis. This book is concerned with cross-linguistic contrast of major grammatical categories in English and Chinese, two most important yet genetically different world languages. This genetic difference has resulted in many subsidiary differences that are, among other things, related to grammar. Compared with typologically related languages, cross-linguistic contrast of English and Chinese is more challenging yet promising.
