This is a dummy description.

Creative Therapy 2: Working with Parents | Wiley

Creative Therapy 2: Working with Parents aims to increase the creativity of therapists who are working with children and need to involve the parents. It aims to enable therapists to help parents be more creative in their own approach to helping their children overcome emotional and behavioural difficulties.

Creative arts therapy can involve working with any art form. Examples would be music, visual art, or dance. As the therapist guides the focus of their work, the client should become increasingly...

Creative Therapies: Goals, Techniques & Limitations ...

Creative arts therapies are based on the premise that when someone works creatively under the guidance of a qualified therapist, they become more expressive and communicative. This raises their awareness of issues and brings impetus for change. The creative work can involve music, art, dance, movement, and other creative activities.

Creative Therapies | Taking Charge of Your Health & Wellbeing

Dance therapy could work with dance as expression of self. Psychodrama might dramatize near true to life experiences in the hopes of understanding group function and self. Writing therapy incorporates the idea of writing about the self in order to promote better understanding. Creative therapy with children may involve the creation of puppets.
