BY: trini. Blogs / Education / Language / School / Speech Therapy / Therapists / Uncategorized. Aloha from everyone here at Speech Solutions Hawaii! We know the /r/ sound is any SLP's dreaded goal in therapy! It's hard to elicit and not to mention it isn't a visual sound.

3 tips for eliciting the /r/ sound - Speech Solutions

If the child is "dentalizing" the sound (letting the tongue touch his teeth when producing the sound), have him place the tip down below the bottom teeth or up towards the alveolar ridge and that will eliminate that problem. Odds are, the child's tongue tip is in the middle, so moving it up or down will get it off the teeth.

2 Gals Talk ...about speech therapy: ELICITING SOUNDS- /s/

The hardest part about teaching sounds and improving your child's intelligibility is to help them make a sound that they're not able to say at all. This post will give you some ideas of how to elicit each American-English speech sound. Teaching Sounds: What To Do

Teaching Sounds in Isolation to Children with Speech ...

The most common label for the SH sound is the "be quiet sound." We visually cue by putting one finger in front of our mouth, pucker our lips, and blow. The simple act of putting one finger in front of our lips causes us to naturally round them which is necessary to produce this sound correctly. Most of us do not even realize we do this.

2 Gals Talk ...about speech therapy: Eliciting Sounds-SH ...

So, if the child you are working with can say the /f/ sound, teaching the /v/ sound is easy. Simply tell them to say the /f/ sound and then "turn on" their voice for the /v/ sound. You may want to have them feel the vibrations on their throat or lower lip when making the sound.

How to teach the F sound and V sound | Mommy Speech Therapy

If your child can already articulate the "t" and "sh" sounds, you can use these sounds to elicit the "ch" sound. Instruct your child to say the "sh" sound, but to hold his tongue on the roof of his mouth. Have him feel the built up pressure before he releases the air out of his mouth.

How to Teach the "Ch" Sound - Speech Buddies Blog

Since the /ch/ sound is a combination of two other sounds, the /t/ sound and the /sh/ sound, a great technique to help your child make the sound is to have them say the /t/ and the /sh/ sounds back to back. For example, the phrase "meet ship" begins to sound like "me chip" the faster you say it. Encourage your little one to try this.
