The 5008 Therapy System A Vision turned into Reality The 5008 Therapy System was developed to fulfil current challenges in haemodialysis: continually increasing patient numbers with a growing share of medically challenging patients, combined with often limited funding and staff.

### 5008 Therapy System

Fresenius Medical Care is focused on continuous development and advancement to meet the changing requirements of dialysis today. Therefore, we are always in search of opportunities for improvement. The result of these efforts is our new product line CorDiax, which provides products for superior cardioprotective therapies.

### 5008S CorDiax - Fresenius Medical Care

The 5008 dialysis machine enables the simultaneous delivery of post- and pre-dilution volumes — the so called MIXED HDF. With its two substitution pumps, the convective transport can be increased by adding a pre-dilution share to avoid the risk of hemoconcentration or to compensate for low blood flows.
