Your gut instinct is the physical reaction you have to the world around and inside of you. When you experience an overwhelming "gut feeling," your body is carrying out a primal response to subconscious information. The ultimate purpose of your gut instinct is to protect you.

7 Gut Instincts You Should NEVER Ignore * LonerWolf

"We often talk about intuition coming from the body — following our gut instincts and trusting our hearts," the study's coauthor Barnaby D. Dunn, of the Medical Research Council Cognition and Brain Sciences Unit in Cambridge, UK, said in a press release. "What happens in our bodies really does appear to influence what goes in our minds.

Instinct vs gut feeling? A gut feeling is a physical response to instinct. Here's the thing... When we perceive danger we are hardwired in a way that our intestines react. You might know it. Your gut does this weird thing, like when you feel a twang in the stomach. It's a primal connection between the brain and the gut that works to keep us safe from predators or other physical threats. It is part of our fight or flight response. Is gut feeling intuition? Is gut instinct and intuition ...
