In nutshell: Data for "R in a Nutshell" Description Usage Format Source Examples. Description. This data set contains information on babies born in the United States during 2006. There is one record per birth. This data set is a random ten percent sample. This data set is used as an example in the book "R in a Nutshell" from O'Reilly Media.

births2006.smpl - R Package Documentation

R in a Nutshell also tries to cover some of the basic and some of the not-so-basic statistical tests available in R. It is assumed that you have some concept of what tests you want to run and why you would be running them, so that R in a Nutshell can primarily provide you with an introduction to the syntax of your favorite statistical test.
