GSAS Design & Build certification process consists of two stages: Stage 1 obtaining the Provisional Design & Build Certificate in the form of Letter of Conformance (LOC) following the design phase; and, Stage 2 pursuing the Conformance to Design Audit (CDA) during the construction phase. The successful completion of Stage 1 and Stage 2 of the certification process will qualify the project to obtain the final GSAS Design & Build Certificate.

The 2014 Sustainable Groundwater Management Act (SGMA), requires local public agencies and Groundwater Sustainability Agencies (GSAs) in medium- and high-priority basins to develop and implement groundwater sustainability plans (GSPs) or alternatives to GSPs. GSPs are detailed roadmaps for how groundwater basins will reach long term sustainability.
